

What is SOL?

SOL (People for Solidarity, Ecology and Lifestyle) is an NGO campaigning for a sustainable and more fulfilling lifestyle and for corresponding changes in the political framework.

SOL was founded in 1979, numbers 2000 members from all over Austria, and is independent of any political parties or religious communities.

What are SOL's activities?

- **Education for Sustainability:** Motivation is important, and so is knowledge. Both aspects are imparted by means of *Symposia, lectures, and workshops organised by our Sustainability Education Agency, and by our two magazines, "SOL" and "Sustainable Austria".* www.nachhaltig.at (German)
- **Projects:** Our projects discuss, deepen and disseminate the knowledge of sustainable lifestyles in general and of certain aspects thereof in particular. *Appeal for a sustainable lifestyle, futuro, cleanEuro, farmers' golf, interdenominational calendars...*
- **Networking:** We bring people together who want to live in a more sustainable way and/or want to change social frameworks. *Personal networking in regional groups, Networking with other NGOs in Austria and in Europe*

Who you are

You are aware of the challenges we are facing, and want to contribute actively to the solutions.

What you can do

As a member, you get the SOL magazine quarterly by mail and you can co-decide our strategy at our meetings. The membership fee is determined by your self-evaluation.

Feel free to order some trial issues without obligation!

As a volunteer, you contribute your special abilities and interests – no matter where you live, what age you are, what profession you have.

Please contact us!

In regional groups, interested people meet at various locations in Austria once a month for discussions or simply for social interaction.

You will find the schedule on our website www.nachhaltig.at.

As a reader of our magazines, you might notice some aspects which you want to integrate into your own personal lifestyle.

Let your friends know!

**SOL – People for Solidarity,
Ecology and Lifestyle**

Lifestyle with a future

olidarity

Everyone on this planet has the right to live in dignity and peace, sufficient nutrition and education.

ecology

Future generations should find an environment, which offers a life of plenty and beauty as well.

ifestyle

Therefore we have to bring the governing, responsible people to rethink – and at the same time change our own personal lifestyle.

Community-based and eco-conscious lifestyles can be more fulfilling; living sustainable means more enjoyment with less ecological footprint.
